

HYDROPIG CRISS CROSS POLLY PIG (HPCC)

Light-density foam body
(1-2 lb/ft³ - 16-32 kg/m³)

The Knapp Hydropig Criss Cross Polly Pig offers the pipeline operator a pig with maximum flexibility that is able to negotiate extreme reductions in cross-sectional diameter as well as tight bends in pipelines. The Hydropig Criss Cross's flexible blue coating gives an extra measure of abrasion resistance to the light density swab body. It is available with a flat or tapered nose.
